

Prompts

1. How do i make my violin plot show well
2. `df.isnull().sum()` not showing output in colab
3. the one at the end is showing but the one before i removed all missing values is not showing

AI Declaration Draft

I helped set up and configure a Python virtual environment in Visual Studio Code, install and verify the NumPy, SymPy, and Matplotlib libraries, troubleshoot installation issues, and resolve an import error caused by an incorrect Matplotlib module name.
